## THRESHOLDS PROGRAM

**Mid-Year: January 1 – June 30, 2014**

Single men face unique challenges to overcoming the barriers of homelessness. As the needs differ, so do the objectives. The **Thresholds Program** is designed to provide short-term shelter and supportive services to chronically homeless single men. With a significantly shorter length of stay, program personnel work quickly with the men to develop gainful employment opportunities and to secure permanent housing. By providing practical, applicable information, education, and services in a condensed timeframe, men are provided intensive, “life-ready” skills in the shortest period possible. This efficient process moves men into stable, permanent housing swiftly but carefully. Moreover, they have other necessary resources and tools that will ensure that they can maintain it.

### PARTICIPANT DEMOGRAPHICS

The population served in the Thresholds Program is homeless single men from the city of Milwaukee. These individuals have entered the program from extremely low-income backgrounds with inadequate resources to secure housing.

**During the first half of 2014, 82 single men were served by the Thresholds Program. There were 69 new intakes and 69 discharges. Demographically, of the new intakes, 57% were African-American, 33% were White and 10% identified as more than one race. 10% also identified as Hispanic or Latino. 93% of participants exited the program after less than 2 months in shelter.**

**Issues other than homelessness faced by the new intakes include Mental Illness (36%), Physical Disabilities (41%), Alcohol Abuse (10%), Drug Abuse (17%), Domestic Violence (9%), and Developmental Disabilities (4%). Many of these men faced multiple issues simultaneously.**
